

## Organic Sugarbeet Molasses Feed Quality

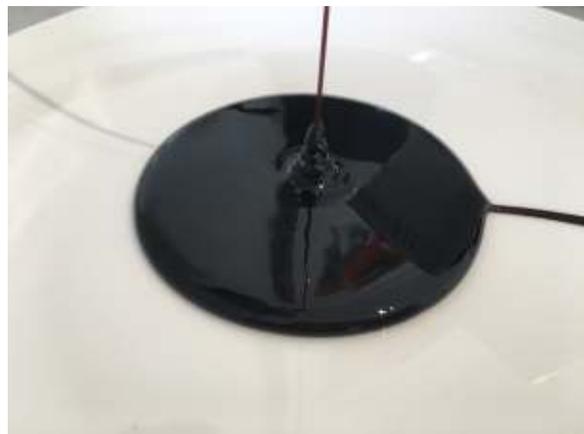

(Product from biologically controlled cultivations)

Product No.: DMH-D1SZb

### Product description:

Organic sugarbeet molasses is a byproduct of the organic beet sugar production from organic sugarbeet. The organic sugarbeet molasses is used in the feed industry to bind dust, pelleting aid, silage additive and to stimulate the appetite of the animals.

Parameter	Value	Measuring Unit
Moisture	20 – 25 %	%
Total sugar	min. 47	%
Ash	max. 9	%
PH	8-9	
Density	1,35 1,45	

The exact composition of organic sugarbeet molasses depends on the composition of the processed sugarbeet and is subject to natural variations.

Packaging: In IBCs (each ca. 800 KG/1.350 KG) and in drums (each ca. 160 KG)

Certificates: EU-Organic, Q-S

### **Liability**

The information contained herein is based on technical data that DMH Deutsche Melasse Handelsgesellschaft mbH (later on called DMH) believes to be reliable and accurate, but disclaims any warrant or guarantee, express or implied. DMH reserves the right to change information contained herein without prior notice. Any information included herein taken solely or as a whole, does not suggest in any way the product is of satisfactory quality or is adequate for a particular purpose. The purchasing party is not released from the burden of carrying out his own tests and experiments. Because conditions of use of this product are outside our control, DMH excludes any legal or other liability for the use of this information or any part of it, whether or not based on DMH's negligence, and therefore DMH shall not be liable for any damages (special, direct, indirect, consequential damages) relating to the use of this information or the use of the product referred herein, solely or in combination with other products. Consequently all liability on the part of DMH is excluded. Furthermore, our sales and delivery conditions will apply accordingly.
