

Organic Sunflower Cake

(from biologically controlled cultivations)
Product No.: DMH-P6

Product description:

Organic sunflower cake is a byproduct of the organic sunflower oil production through pressing from organic sunflower kernels. In comparison to a extraction meal the organic sunflower cake contains more fat and though is rich in energy. Similar to the sunflower oil the fat contains a high amount of unsaturated fatty acids. Because this positively effects the composition of fats of the milk, organic sunflower cake is particularly valuable in ruminant feed. (cattle, sheep, goats) The product is also used in feed for chickens. Organic sunflower cake is rich in essential amino acids, fluorine, iron, copper, magnesium, vitamin B, A and E.

Parameter	Value	Measuring Unit
Protein	min. 28	%
Fat	max. 12	%
Moisture	max. 9	%
Fibre	max. 30	%

The exact composition of the organic sunflower cake depends on the composition of the processed organic sunflower seeds and is subject to natural variations.

Packaging: In bulk

Certificates: EU-Organic, Q-S
