

Dicalcium Phosphat

(Product code: DMH- SBZ44EX-DI)

Product description:

Dicalcium Phosphat is a mineral nutrient to animal feed, which contains calcium and phosphorus from inorganic compounds, namely orthophosphorus acid and finely ground calcium carbonate. It occurs as a white, odorless, fine powder which is stable in air. It has a low solubility in water, but it's readily soluble in ammonium citrate. Dicalcium phosphate is necessary in animal diet because of the significance of calcium and phosphorus in bone formation.

Parameter	Unit	Value
Phosphorus (P) Total	%	min. 18
Solubility in 2% citric acid	%	min. 98
Calcium (Ca) Total	%	min. 23
Humidity	%	max. 2.5
Granulometry – powder	mm; %	<0.5; min. 95
pH-Value (1% solution)		5 - 6.5
Color		white
Humidity	%	max. 2
undesirable Elements	Unit	Value
Flourine	%	max. 0.2
Arsenic	ppm	max. 10
Cadmium	ppm	max. 10
Lead	ppm	max. 15
Mercury	ppm	max. 0.1
Dioxin	ppm	max. 0.75
Non Dioxin like PBC's	ppt	max. 1

Packaging, Labeling and Classification:

The product is in bulk, in 1000 kg net big bags (PP with a PE inn lining), or 25 kg net bags (PVC or Natron with a PE inner lining), an opportunity for shrink wrapped pallet. The labels may be in different languages according to the client's requests. The product is not classified as hazardous according to EU regulations. Packaged product is protected from dispersion, moisture, contamination and other adverse effects.

Storage:

The product should be stored indoors in a dry and cool place. If properly stored in original packaging the recommended usage is 3 years

Transport:

The product is not classified as dangerous according to transport regulations.

Liability

The information contained herein is based on technical data that DMH Deutsche Melasse Handelsgesellschaft mbH (later on called DMH) believes to be reliable and accurate, but disclaims any warrant or guarantee, express or implied. DMH reserves the right to change information contained herein without prior notice. Any information included herein taken solely or as a whole, does not suggest in any way the product is of satisfactory quality or is adequate for a particular purpose. The purchasing party is not released from the burden of carrying out his own tests and experiments. Because conditions of use of this product are outside our control, DMH excludes any legal or other liability for the use of this information or any part of it, whether or not based on DMHs negligence, and therefore DMH shall not be liable for any damages (special, direct, indirect, consequential damages) relating to the use of this information or the use of the product referred herein, solely or in combination with other products. Consequently all liability on the part of DMH is excluded. Furthermore, our sales and delivery conditions will apply accordingly.
